

Canvas Gradebook

The Canvas gradebook plugin allows Planet eStream users who also use the Canvas learning platform to embed eStream quizzes into assignments within Canvas. Quiz scores will be automatically added the Canvas Gradebook.

Step 1: Creating the Assignment

As a Canvas administrator or teacher, navigate to assignments on a relevant course, add an assignment and give your assignment a name and a description. You can use the Planet eStream plugin to use a video as assignments description or simply type it in using the text editor.

eStream content is accessed via the green 'E' in the toolbar.

The screenshot shows the Canvas LMS interface for creating a new assignment. The breadcrumb trail at the top reads "Tom's > Assignments > Create New >". On the left, a navigation menu lists various course elements, with "Assignments" highlighted in blue. The main content area shows a form for creating an assignment, with the title "Planet eStream Assignment" entered. To the right of the title, there are "Not published" and "Settings" icons. Below the title is a rich text editor toolbar with various icons for text formatting (bold, italic, underline, text color, background color, link, unlink, image, math, video, audio, link, unlink, list, list, indent, outdent) and a font size dropdown set to "12pt". The "Planet eStream" icon, which is a green 'E' inside a square, is highlighted with a red box. Below the toolbar is a large text area for the assignment description, which is currently empty. The text "HTML Editor" is visible in the top right corner of the text area.

Next, set the assignment points as 100 and show the grade as a percentage. You can then add a submission type, which for Planet eStream quizzes will be **External Tool**. Select **Find** and then select **Planet eStream**.

Assignment group: Assignments

Display grade as: Percentage

Do not count this assignment towards the final grade

Submission type: External tool

External Tool Options

Enter or find an external tool URL

Find

Load this tool in a new tab

You can then search for quizzes on your Planet eStream site and select the quiz to add it the assignment.

20/21 John Humphreys tests five more semi-finalists. The subjects are Creation Records

Finally, add the due date and who the assignment is applicable to. Then, select **Publish**.

Step 2: Attempting the Assignment

Students can attempt the assignment by logging into Canvas to see any assignments that have been set. These will be displayed on the assignments tab or To Do List.

Simply complete the quiz as normal but in the embedded Canvas window, rather than Planet eStream.

On completion of the quiz a score will be provided and a message will also be shown saying that the quiz result has been posted to the Canvas Gradebook. Please note that Free Text Questions will not be marked automatically and a score will only be given for these questions once they have been marked correct/ incorrect by the quiz owner.

The screenshot shows a Canvas interface with a sidebar on the left containing navigation options: Home, Announcements, Assignments, Discussions, Grades, People, Syllabus, Conferences, and Collaborations. The main content area is titled "Recent activity in Tom's" and displays "4 assignment notifications" with a "SHOW MORE" link. A notification below states: "This course content is offered under a Public domain license. Content in this course can be considered under this license unless otherwise noted." On the right, a "To do" section lists "Complete Planet eStream Assignment" (100 points, 13 Oct at 16:59) and "Planet eStream Assignment" (Tom's, 100 points, 13 Oct at 16:59). A "Recent feedback" section shows "Nothing for now".

Step 3: Viewing and Grading Submissions.

As a teacher you can simply go to grades where you will be able to view submissions from your students. The grade will be shown as a percentage for each student who has completed the assignment. Do not forget to mark any Free Text Questions, where applicable.

The screenshot shows the "Grades" page for "Tom's". It features a search filter "Filter by student name or secondary ID". Below is a table with the following data:

Student name	Secondary ID	Planet eStream Assignment Out of 100	Assignments	Total
Ben Goulden	beng	67%	67%	67%
