

## Frog

Planet eStream users who also use Frog as their learning platform can take advantage of the seamless integration between the two platforms.

### Step 1: Searching for Planet eStream Content

To begin adding or altering any existing content on you Frog site, first navigate to the content that you would like to change and click the **Edit** button:

Play

25:00

With the edit tab now opened, you can select the item that you want to edit. For this example, I will select the video on the page.

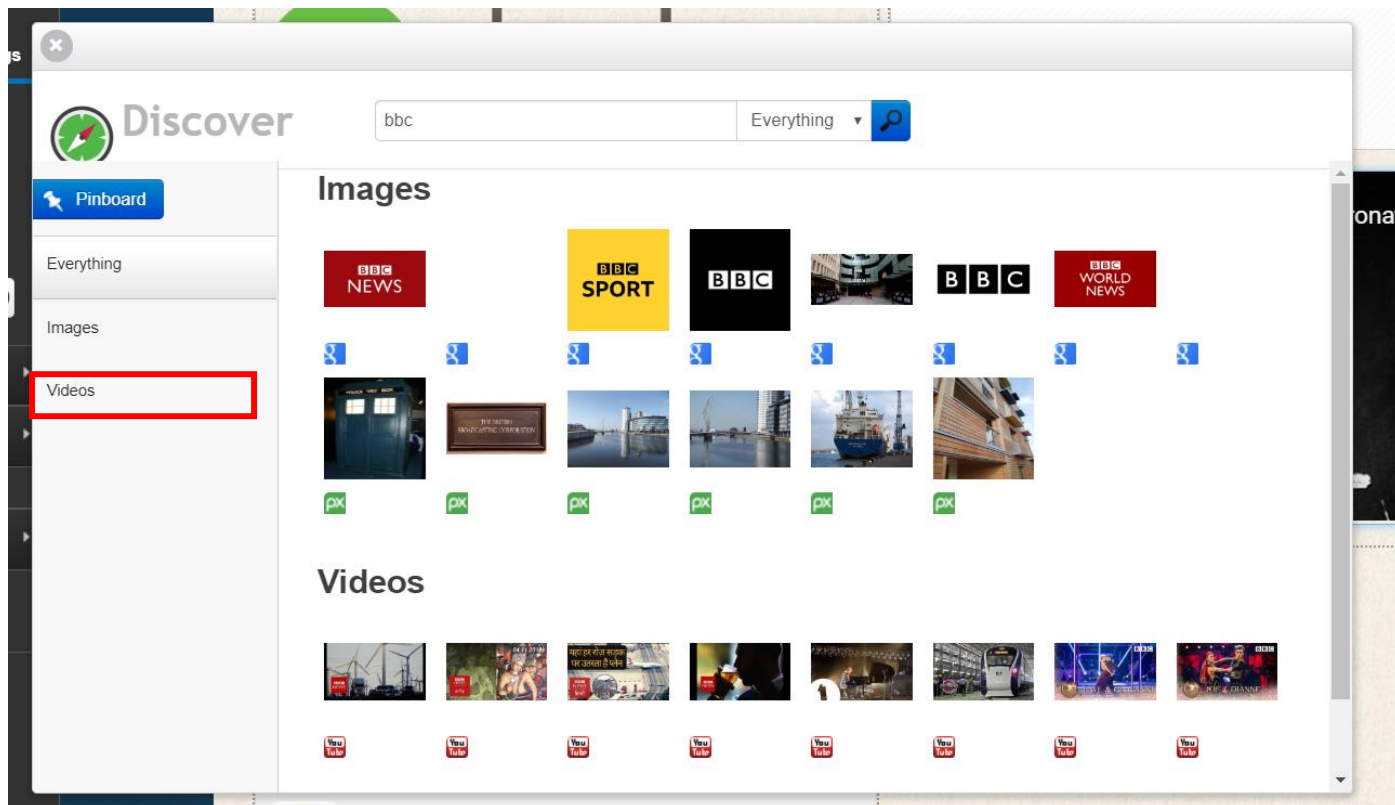

With the specified item selected, click on the Frog discover icon to begin searching for content.

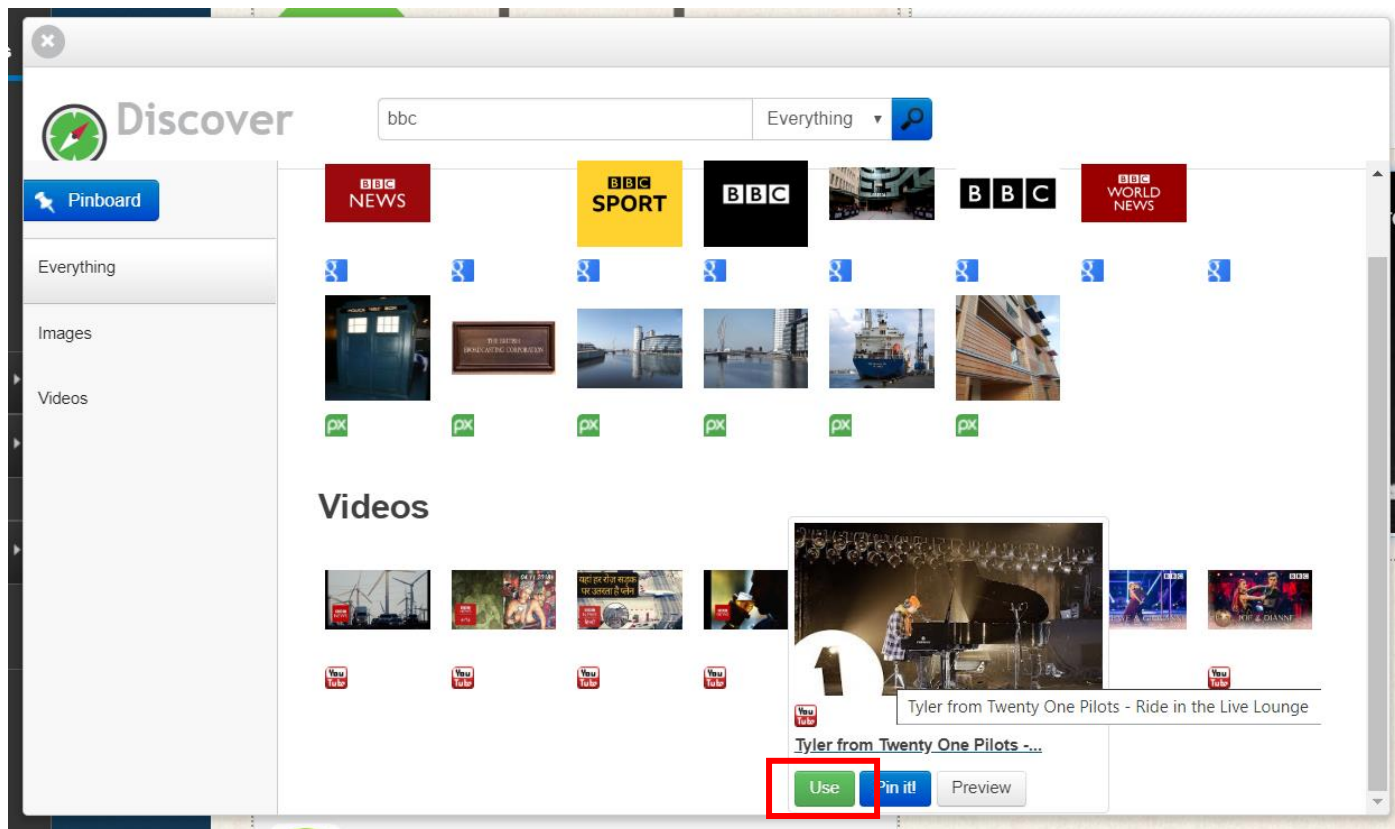

With the discover page now open, you can begin searching for content using the search bar. For example, if you wish to search for any BBC content, type BBC into the search bar and you will be presented with various content items relating to BBC from across multiple website sources including your Planet eStream site.

You can select the Videos option to filter to Planet eStream results.

Once you have located the item you want to add, hover over it and select **Use**.

You will notice that your content item has now changed and you can click **Save Changes**.
