

Embedding Content into OneNote & Sway

Cloud Platform customers of Planet eStream can embed any content from their eStream media library into the Microsoft OneNote & Sway platforms. This can be done with videos, documents, photos, quizzes, playlists and quizzes.

Step One

Locate the piece of content you wish to embed and click the **Share** option, followed by **Share by Embedding**.

The screenshot shows the Planet eStream interface. On the left is a large black video player. On the right is the content details page for 'The Secret Science of Pop'. The 'Share' button is highlighted with a red box, and the 'Share by Embedding' option is highlighted with a green box. The interface includes a search bar, navigation tabs (Details, Chapters, SlideShows, Related Media, Subtitle Search), and various action buttons like 'Add to', 'Share', 'Tag Students', 'Item Stats', 'Edit Video', 'Select Quiz', 'Edit Details', 'Manage Subtitles', 'Delete', 'Re-download from Connect', and 'Help'.

To embed a chapter, locate the chapter you wish to embed and click the **Share** option.

The screenshot shows the Planet eStream interface with the 'Chapters' tab selected. It displays a list of chapters. The 'Share' button for a chapter is highlighted with a red box, and the 'Share by Embedding' option is highlighted with a green box. The interface includes a search bar, navigation tabs (Details, Chapters, SlideShows, Related Media, Subtitle Search), and various action buttons like 'Create Chapter', 'test', 'Chapter 1', 'Start', 'Duration', 'Added', 'Create Quiz', and 'Share'.

Step Two

In the embed options, you will be presented with three separate embed codes. The first is a normal iframe for general embedding, then you will see one for OneNote and one for Sway.

The screenshot shows a user interface for creating an embed code. It is divided into two main sections: 'Create Web Link' and 'Create Embed code'.

Create Web Link:

- Text: "Modify the Embed Code with the options on the right."
- Text: "Click on the box below to highlight the Embed Code"
- Code box: `<iframe allow="autoplay; fullscreen" height="270" width="500" src="https://sales.planetestream.com/Embed.aspx?id=6352&...">`
- Text: "Right click and select 'Copy'"

Create Embed code:

Options:

- Width: 500, Height: 270, Maintain Aspect Ratio:
- External Authentication Required:
- Expires: Does not expire (dropdown)
- TimeLines: Select Timeline (dropdown)
- Just for fun:
- Hide Details: Overlay Controls: Show Subtitles:

OneNote: (highlighted with a red box)

- Icon: OneNote logo
- Code box: `https://sales.planetestream.com/Embed.aspx?id=6352&...`
- Text: "Select the link above to use with Microsoft OneNote."

Sway: (highlighted with a red box)

- Icon: Sway logo
- Code box: `<iframe height="270" width="500" src="https://sales.plane...">`
- Text: "Select the link above to use with Microsoft Sway."

Step Three

Copy the embed code from your Planet eStream system and then paste it into the relevant platform, in this case OneNote. You must be using OneNote online and not the desktop application.

Hit return to convert the embed code into an embedded video player.
